

Customer Service

The American Lease Insurance Program protects your leased or financed equipment—and your business.

Protecting your leased or financed equipment is a smart move. Insurance is required by your lease or finance agreement to protect the equipment. It can also help you to keep operating after a loss.

Better protection. Underwritten by “A” rated insurance carriers, the ALI Program provides exceptional protection not available through most business owners policies. Find out **what’s covered?**

Lower costs you can count on. The ALI Program is affordable and predictable, with insurance charges fixed for the term of your lease or finance agreement. **Calculate insurance charge**, then compare it to coverage you can arrange on your own.

Fast replacement. No deductible. For every covered loss, the equipment will be repaired or replaced, or the balance of your agreement paid off. Fast. Typical business owners’ policies cover replacement cost minus depreciation and you have to make up the rest. With the ALI Program, the full replacement value is covered, and there’s not even a deductible to pay. And reporting a loss is simple. See how to **report a loss**.
